"Sharing a life-saving message for more than a decade."

April 23, 2008

A WORD FROM THE DIRECTOR

by Sarah Beth Simmons

Syphilis is a bacterial STD, which can be cured, has been on the rise for the last seven years, says CDC (March 2008). The concern with

this rise is Syphilis can

SYPHILIS RATES UP FOR 7TH YEAR IN A ROW

increase the risk of someone contracting the AIDS virus. It is six more times higher in men than in women. For the entire article from the Center of Disease Control, click the link below.

IF YOU ARE INTERESTED IN A PROGRAM for your church or community group contact us at community@justwait.com

on the world wide web

NEW STUDENTS SECTION

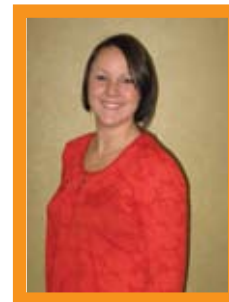

We don't expect you to make a pledge to abstinence and then spend Friday and Saturday night alone in your bedroom crocheting, making YouTube cries for help, and playing Yahtzee with your little sister and her imaginary friend, Lewis, while waiting for someone to come along and marry you...which is why you will find some date ideas at www.justwait.com/students. If you live outside the Knoxville area, still take a look and maybe there are similar organizations or places that you can go. Also, if you have a good date idea or your know of a business willing to give some discounts to students making good choices let us know by clicking here.

Johnna Bullard is the newest addition to the JUSTWAIT staff. Johnna is married to Will and has two beautiful kids Jaden Lily(6) and Eason(1). Johnna was first introduced to Hope Resource Center as a client in 2000 while pregnant with her daughter Jaden Lily. Johnna had been teaching English in Knox County for the past three years before she was hired at JUSTWAIT.

UPCOMING PROGRAMS

Grace Christian Academy
Bearden Middle School
Cedar Bluff Middle School
